

## Dreams and Visions

This class will introduce you to the fascinating world of deciphering dreams and visions. We will create a warm and supportive environment where you can freely explore various symbols, numbers, colors, people, animals, and familiar and unfamiliar signs that the Lord uses to convey messages. Some dreams and visions provide warning, others instructions or directions, and others bring understanding, peace, and aid in decision-making. The Lord uses dreams and visions to inform, encourage, strengthen, and motivate you, and we are here to guide and support you every step of the way.
